# Intellectual Property Rights in Architecture:

## Integrating Indian Traditional Knowledge System

#### Objectives

- To familiarize participants with various forms of IPR such as patents, copyrights, design registration, trademarks and AI-integrated research in context to architectural practice.
- To develop understanding of the legal framework in India governing IPR for architects and institutions.
- To guide faculty and professionals in identifying patentable and protectable aspects of their architectural projects, research, and innovations.
- To encourage documentation and protection of traditional indigenous design methods and construction know – how under IPR.

#### Key Takeaways

- Knowledge of step-by-step procedures for patent, copyright, and design registration.
- Advancing architectural innovation by AI-integrated research with IP literacy to link academia and industry.
- Awareness of legal implications of copying, imitation, and plagiarism in architectural works.
- Understanding of the connection between Indian Knowledge Systems and IPR safeguards.
