

**Dates:** 11<sup>th</sup> June to 15<sup>th</sup> June, 2018

**Last date for registration:** 28<sup>th</sup> May, 2018

**Venue:**

Council of Architecture Training & Research Centre,  
Pune

**Convened by:**

Prof. Jayashree Deshpande, Director, COA - TRC, Pune

**The contribution of a teacher is crucial to the strengthening of the professional fraternity and the nation's intellectual infrastructure. Not merely constrained to the delivery of academic content, the role of a teacher surpasses classroom boundaries to become a learning facilitator, resource developer, evaluator, guide, mentor, counsellor and role model. Teachers of architecture, although from the professional field, cannot be an exception to the rule.**

### **Registration Process**

Colleges who have registered with Council of Architecture under the Collaborative Training Program by payment of training fees in advance, proportionate to their average intake, can nominate teachers to participate in this program. The nominated teachers can register for this program by filling up the attached google form and mailing back a scanned image of the application form duly authenticated by HOD/Principal on [ttpcoatrc.pune@gmail.com](mailto:ttpcoatrc.pune@gmail.com) and [directorcoatrc.pune@gmail.com](mailto:directorcoatrc.pune@gmail.com)

Only in case nominated teachers registered for this program require provision of accommodation, the facility of accommodation on sharing basis, breakfast and dinner for five days can be availed of by payment of ₹5,000/- per head **by online payment/bank challan** and mailing back scanned images of the proof of payment together with application form duly authenticated by HOD/Principal on [ttpcoatrc.pune@gmail.com](mailto:ttpcoatrc.pune@gmail.com) and [directorcoatrc.pune@gmail.com](mailto:directorcoatrc.pune@gmail.com)

**The young teachers and "to be" teachers too, are invited to this platform to share their experiences, resolve their classroom and studio issues and take back with them several experiences to enrich their academic proficiency.**

Teaching is a science that needs to be understood and learnt by every teacher. However, the need for special training for teachers of professional courses is yet to be fully appreciated. It is now time to acknowledge the fact that the "technology of education" is vast and developed and has the potential to contribute to almost all its sub domains. Application of knowledge from the field of education to that of Architecture Education, a sub domain of higher education, will not only enrich the learning process of architecture students but also definitely help in improving the general quality of architecture in the long run. Teachers do not have to rely entirely on self experience. If lessons from technology of education are understood and adopted by young teachers in their early years of career, a lot can be achieved in the future of architecture education through their involvement.

The program, specially designed for teachers of schools of architecture, aims to sensitize teachers about new concepts in teaching and enables the participants to develop competence in understanding recent advances in education technology, to learn to improve pedagogies and to better their interpersonal skills in order to become effective faculty.

#### **The topics expected to be covered during the program include:**

- The psychology of the teaching-learning process
- Qualities and Roles of a teacher
- The philosophy of education and theory from the field of education
- Trends of teaching in Architecture in India
- Creative teaching techniques for application in the design studio
- Overview of the design process through the inputs from education
- Models of teaching and their application to subjects in the architecture curriculum
- Creative exercises to enhance the quality of teaching in architecture
- How to handle various subjects in the curriculum of the undergraduate course in architecture.
