Demystifying the Design Journey
Concept Building Tool Kit for the Architecture Design Studio
Convened by Prof. Jayashree Deshpande, Director, COA-TRC, Pune
Coordinated by Darpana Athale, Architect, Designer, Academic, Journalist

Architecture is a subject that requires important design thinking abilities to approach each project. Different kinds of learnings revolve around many factors, including problem-solving skills, memory retention, thinking skills and the perception of learned material.

This workshop aims to create a strategy of social learning and analogical thinking to help the participants prepare their students to think and learn effectively, expand their mental thinking of design concepts, and develop the ability to flexibly use their knowledge through teacher-student interactions, teaching and learning methods, assigned tasks or study aspects, and design communication techniques. The workshop is an iterative process model wherein through dialogues, discussions and hands on processes, an organizational framework can be created for the development of teaching expertise.

The output of the workshop will be theory and exercise based wherein participants will be able to learn different tools for creating design briefs, conducting design studios and help students understand design concepts in the subjects of Architecture Design, Campus Planning, Thesis and Structures.

The workshop will be conducted in the form of talks, presentations and interactive discussions on...

1. Introduction to Concepts & Basic Tools
2. Design Methodologies
3. Basic Fundamentals of Design
4. Skills sets development
5. Analysis of Form
6. Strategies of Design
7. Materials & Climatology as tools for design
8. Getting inspired from Nature
9. Developing a design from concept to built
10. Tapping visual memories
11. Cognitive Learning
12. Reading & Literature as tools for concept building
13. Art and Concept building
14. Building context through culture
15. Structure and Design
16. Technology & Tools for Concept Development
17. Concept Development for Thesis
18. Understanding how to present a concept

The five day workshop will involve various experts from the fields of Architecture, Engineering, Design, Art, Technology and Academics sharing their insights and knowledge with the participants.
