**@ Manipal Academy of Higher Education
Dubai campus, United Arab Emirates**

PREAMBLE

The Program introduces the application of BIM in design process in architectural design studio to efficiently manage building design, infrastructure, structural and services design. The concept of collaborative design through BIM will enhance the experience of architectural design studio. The program will also introduce the 3D design and printing technology for architectural applications. The program includes exterior visit to the first 3D printed building in the United Arab Emirates.

List of speakers:

Alejandro Guerrero, Architect
Arvind Ojha, Structural Engineer, CADD Centre
Shammas, MEP Engineer, CADD Centre

Topics

BIM as a collaborative tool in design studio
The revolution in 3D printing
BIM - academia and industry interface
Trends and benefits of BIM in design process

Registration Process:

Colleges who have registered with Council of Architecture under the Collaborative Training Programme by payment of training fees in advance, proportionate to their average intake, can nominate teachers to participate in this programme.
