

NOTICE

Ref No. COA/ Inspections/2018-19

April 09, 2018

Sub: Inspection of Educational Institutions

It has been brought to the knowledge of the undersigned that some of the inspectors, even if they are a few in numbers, assigned with the task of carrying out inspection of Architectural Institutions on behalf of Council of Architecture, are not reporting the factual position of the institutions in fulfilling the norms, prescribed by the Council, for maintenance of Minimum Standards of Architectural Education.

While appreciating the sincere efforts by most of the Inspectors in bringing about the correct assessment of the educational institutions, the Council has taken a serious view on the in factual reporting by a few inspectors. The Council expects to receive fair, unbiased and factual reports, within a reasonable time, from all the inspectors, entrusted with the assignment, pursuant to the guidelines provided to them. Needless to mention that the Council's subsequent action depends on the reports received at its end from the inspectors.

In view of above, I appeal to all the inspectors to submit their fair and unbiased report after carrying out inspection in the concerned institutions within a reasonable time.

It may kindly be noted that in the event of any violation to this, if subsequently gets established, the Council may initiate action, as appropriate, including treating the case as professional misconduct.

I solicit the cooperation from all concerned.

(B R NAYAK)

PRESIDENT

COUNCIL OF ARCHITECTURE
