The Council also perused the report of the Disciplinary Committee dated 29.09.2008 and entire sequence of events in the matter and noted that allegations made against the Architect were already being a matter of investigation and trial by the concerned courts and as of now no document has been submitted to Council finding the respondent Architect guilty in the matter. The Council also noted that the Complainant had expired.

The Council after deliberations did not agree with the report of the Disciplinary Committee dated 29.09.2008 and accordingly decided that there is no professional misconduct on the part of the Respondent Architect, as alleged, and accordingly dismissed the complaint.

2. CA/DC/328, Shri Ravi Nagpal, STPI Vs. Shri Dinesh Kumar Sharma, Architect.

The Council noted that a complaint dated 18.10.2010 was received for alleged professional misconduct from Shri Ravi Nagpal, STPI against Shri Dinesh Kumar Sharma, Architect with following allegations:

- The scope of work includes Architecture, allied field and project management services. The work was not completed within the stipulated time of 24 months.
- Ignoring the delay in work as good gesture from the department and additional time of 12 months was allotted for which even an additional payment of Rs. One lakh per month was agreed to and paid despite a specific provision in para 8.8 of the agreement that penalty of 1% per month subject to a maximum of 10 % of consultancy fees shall be imposed on the consultant for non completion of work in time.
- However STPI restrained itself from invoking clause 8.8 of agreement till now and didn't invoke the penalty so far as stipulated in the said clause. STPI however still reserves its right to invoke the clause 8.8. Due to inefficient management of the part of the Architect, the progress of the work is still around 60 % and no work is being done from the last one year.
- The Consultant miserably failed to comply with the provisions under part III of the agreement wherein the action regarding early warning report to the contractor on the potential delays, fortnightly reviews and recasting of schedule were never taken to make up time lost in execution of the work.
- That there are serious failures on part of D.K. & Associates such as delay in issue of drawings, wrong estimation, and frequent changes in drawings / design and providing decisions / details. D.K. & Associates have miserably failed in getting the work completed. The above

lapses were intimated to D.K. & Associates from time to time through various letters hoping that they may improve their working and would carry out the work according to the terms of agreement.

- While going through the observation of CTE (Chief Technical Examiner's) it can be judged that the observations raised pertaining to the work are related to work preparation of estimate resulting into large scale deviations, not carrying out the work as per the approved drawings, designs and relevant specification for which release of payment to the contractor have been recommended by D.K. & Associates from time to time. The work has not been taken up as per condition & specifications of the contractor's agreement and also as per CVC guidelines, which has resulted to serious irregularities in execution of the above work, as pointed by CTE. STPI had observed serious lapses in running bills. D.K. & Associates was requested to give details of persons deployed by him at the work site but same has not been furnished till date. The reply to CTE's observation was to be submitted through STPI which was not furnished by the consultant.
- The other complaints on non performance on part of the Architect related to Architectural and project Management Services are briefed as under:
 - Wrong framing of Estimate.
 - Improper supervision of the Work.
 - Non Replying to CTE's Observation.

The Respondent Architect submitted following defence :

- We have executed all our assignment at right earnest & supplied STPI copies of approved drawings & BOQ & Tenders documents and also submitted to NOIDA authority on 31.01.2006 for approval.
- All drawings architectural and structural were issue to STPI in time. Work was never held up because of drawings.
- Delay in work was due to delayed payment & also holding payment of contractor by STPI.
- STPI engaged one site engineer – Consultant right from start of the project and consultant was checking all activities of work side by side.
- We submitted Bill of Rs.5,98,399/- but remain unpaid till date.
- The deviation in steel items is due to change in structural design to make it earth quake proof.
- We have replied to all observations of CTE.

The Council also perused the previous report dated 23.07.2014 of the Disciplinary Committee and noted that the only fault found by the Committee on the part of the Respondent Architect was that he could not produce any documentary evidence regarding submission of all drawings in time to the contractor before the Committee.

The Council noted the recent report dated 28.11.2017 of Disciplinary Committee stating that the matter was referred to Disciplinary Committee without giving an opportunity to the Complainant to put forth his views/ arguments.

The Council, therefore, upon detailed deliberations and application of its mind decided that Complainant and Respondent Architect be summoned to appear before the Council to provide them opportunity to put forth their views and deciding the matter finally and the Respondent Architect be informed to produce the document, if any, regarding submission of drawings in time before the full Council in its next meeting.
