2. The onus of checking the legitimacy is on the users of the certificate.
3. In case of any discrepancy please inform the Competent Authority.

Memorandum of Understanding

THIS MEMORANDUM OF UNDERSTANDING ("MoU") is entered into on the 11th day of February 2019 at India Habitat Center, New Delhi.

Preamble

This Memorandum of Understanding is being signed between:

GRIHA Council 1st Floor, A 260, Defence Colony, Block A, Defence Colony, New Delhi, Delhi 110024

And

Council of Architecture located at India Habitat Centre, Core-6A, 1st Floor, Lodhi Road, New Delhi-110003, India.

GRIHA Council

Together with The Ministry of New and Renewable Energy (MNRE), Government of India, TERI developed GRIHA (Green Rating for Integrated Habitat Assessment), which has been endorsed as the 'National rating system for green buildings in India' in the year 2007.

GRIHA is an indigenous green building rating system developed specifically to suit Indian climate and construction practices. The rating aligns itself with the national regulatory framework and policies, such as, National Building Code, Energy Conservation Building Code, Ministry of Environment and Forests clearance, Central Pollution Control Board guidelines etc. India, in its INDC document submitted at COP 21 in Paris has highlighted GRIHA as an indigenous green building rating system developed in India.

In order to achieve the aforementioned goals and objectives, GRIHA Council, a not-for-profit independent society, was formed by TERI and MNRE to administer, promote and implement GRIHA in the country. The GRIHA Council issues GRIHA Certification for new buildings as well as retrofits and carries out all activities related to the issuance of GRIHA certification.

All buildings, which are in the design stage, are eligible for certification under GRIHA. Buildings include: offices, retail spaces, institutional buildings, hotels, hospital buildings, healthcare facilities, residences, multi-family high-rise buildings and campuses.
